\subsubsection{Pen}
\subsection*{十分遗憾}
并没有`$\backslash$subsubsubsection', 所以没有pen-pineapple apple pen。
\section{换行、分段以及缩进}
第一行第一段。\\
下一行。\newline
\indent 再来一行。
分段\par
再来一段。
也可以这样换行。
\noindent 没有缩进的新段落。

\section{环境}
\subsection{项目符号、编号、说明}
\begin{enumerate}
     \item 请根据个人口味混合各种环境:
      \begin{itemize}
           \item 可能看起来很怪。
           \item[-] 用横线。
     \end{itemize}
      \item 所以要牢记:放在列表里面的东西,
      \begin{description}
      \item[蠢的]不会变聪明;
      \item[聪明的]会变漂亮。
      \end{description}
\end{enumerate}
\subsection{对齐}
\begin{enumerate}
      \item 左对齐
      \begin{flushleft}
           这些文字都是\\ 左对齐的。
           \LaTeX{}不保证每行长度相同。
     \end{flushleft}
      \item 右对齐
      \begin{flushright}
            这些文字是\\ 右对齐的。
      \end{flushright}
      \item{居中}
      \begin{center}
            千里莺啼绿映红\\水村山郭酒旗风
      \end{center}
\end{enumerate}
\subsection{引用}
\begin{enumerate}
      \item 引用\\
      出于印刷要求,每行的长度要求为:
      \begin{quote}
            平均来说,每行不应超过66个字符。
      \end{quote}
      这就是\LaTeX{}的页面有如此大的缺省页边距,而且报纸使用多列印刷的原因。
      \item 诗歌版式\\
      I know only one English poem by heart. It is about Humpty Dumty.
      \begin{flushleft}
           \begin{verse}
                 Humty Dumty sat on a wall:\\
                  Humty Dumty had a great fall.\\
                  All the king's horse and all the King's man\\
                  Couldn't put Humty Dumty together again.
            \end{verse}
```

```
\end{flushleft}
\end{enumerate}
\subsection{逐字输出 (Verbatim) }
\begin{verbatim}

\subsection{摘要 (Abstract) }

      \caption{Logo}\label{logo}
\end{figure} %插入图片,注意图片格式问题。
\subsection{交叉引用}
如下所示,可以引用到图形、表格、节或页面。\\
转到第\pageref{sec1}页的第\ref{sec1}节。\\
到第\ref{logo}个图形。
